Conference code: 802370

Artist Rebeca Méndez was recently selected to collaborate with the design team to integrate artwork as part of the new Irvington Station. During the webinar, Ms. Méndez will give a brief presentation of her prior artwork and provide the community and stakeholders with information about her approach to art making. Questions raised during the online community survey conducted in February will be addressed, and there will be time to answer questions posted to the Q&A during the meeting.

Ms. Méndez will use feedback received during the meeting and from the survey to develop an understanding of how the Irvington Station will connect to and serve the community. She will also consider any physical, social, cultural, biological, or geographic aspects of the site and/or the community that may inspire the theme, content or concept of the artwork.

More information about the Irvington Station project can be found at <https://www.bart.gov/about/projects/wsx/news> and <https://fremont.gov/2977/Irvington-BART-Station>.
